

## New Member Announcement

**Dear Members and Partners,**

We are delighted to introduce to you **IGS Schreiner GmbH** as member of the New Silk Road Network and experts in **Forwarding and Trucking**.

Founded in 1974 and based in Hamburg, IGS Schreiner GmbH has an impressive service portfolio. Their forwarding arm handles everything from road transport for groupage /LTL/FTL cargo from / to Hamburg, to FCL intermodal transport within Germany, and sea and rail from/to Asia. Thanks to their own CFS in Hamburg, they have developed strong expertise in loading and securing rail containers. In terms of cargo, IGS Schreiner handles a very diversified range of commodities with an interest in FMCG goods. Food, textiles, electronic goods, medical and healthcare items, as well as wax / rubber products are amongst the common goods processed.

The above is supported by a strong fleet of 50 company owned trucks and an additional 250 + vehicles for daily dispatches. Being a logistics service provider handling general cargo, LTL and FTL (also temperature controlled +14 to +18°C) as well as container trucking FCL-wise, they have almost all kinds of trucks in use. Strong routes include Germany (express service), as well as Austria, Switzerland, UK, Poland, Belgium, The Netherlands, Italy, France and Scandinavia.

Add on services include an AEO certified customs clearance department and 4 bonded warehouses operated by their parent group in Hamburg, which provides also direct access to their own IGS Intermodal network for FCL transports, incl. own depots in southern Germany.

For enquiries, please don't hesitate to reach out to:

**Henning Eggers - Manager Sales & Marketing**
